Contents Volume 29, 1990

Research Papers

Engineering geology in Papua New Guinea: a review
D. Stead (Saskatoon, Sask., Canada) 1

A new classification chart for soft soils using the piezocone test
Z. Cheng-hou (Nanjing, P.R China), G. Greeuw, J. Jekel and W. Rosenbrand (Delft, The Netherlands) 31

The influence of foliation on point load strength anisotropy of foliated rocks
K.E.N. Tsidzi (Kumasi, Ghana) 49

Reconnaissance geophysical methods in landslide investigations
D.M. McCann and A. Forster (Keyworth, Great Britain) 59

Transmit-time design of earthen barriers
C.D. Shackelford (Fort Collins, Colo., U.S.A.) 79

Opinion Section

Gravity waves in earthquakes?
C. Lomnitz (Mexico, Mexico) 95

Research Papers

In-situ attenuation measurements in soils
D. Jongmans (Liège, Belgium) 99

A mechanism of chemical weathering of mudstone in a mountainous area
M. Chigira (Abiko City, Japan) 119

Estimating porosity of partially saturated sediments
J.J. Dowling (Groton, Conn., U.S.A.) 139

Tensile and shear fracturing in predominantly compressive stress fields — a review
H.H. Einstein (Cambridge, Mass., U.S.A.) and W.S. Dershowitz (Redmond, Wash., U.S.A.) 149

Subsurface soil characteristics in a mangrove swamp for housing development
C.O. Owuama (Port Harcourt, Nigeria) 173

Opinion Section

Earthquakes in New York City
E.L. Krinitzsky (College Station, Texas, U.S.A.) and P.J. Barosh (Concord, Mass., U.S.A.) 185

Book Reviews

Handbook of Soil Mechanics, Vol.3. Soil Mechanics of Earthworks, Foundations and Highway Engineering, by A. Kézdi and L. Rétháti — B.M. Das 191

Mine Openings. Stability and Support, by Josef Aldorf and Kerel Exner — P.H. Rahn 192

Research Papers

Analysis of structural homogeneity of rock masses
P.H.S.W. Kulatilake, D.N. Wathugala, M. Poulton (Tucson, Ariz., U.S.A.) and O. Stephansson (Luleå, Sweden) 195

Application of limit plasticity to the stability of sinkholes
E.C. Drumm, W.F. Kane (Knoxville, Tenn., U.S.A.) and C.J. Yoon (Kyonggi-do, Korea) ... 213

The mechanics of small tropical flowslides in Dominica, West Indies
C. Rouse (Swansea, Great Britain) 227

Process of slope failure in crystallophyllian formations
A. Giraud (Grenoble, France), L. Rochet (Bron, France) and P. Antoine (Grenoble, France) 241

Book Reviews
Introductory Mining Engineering, by Howard L. Hartman — D. Frantzos 255
Recent Advances in Lifeline Earthquake Engineering, by T. Ariman et al. (Editors) — Ren Wang 256
Theoretical Foundation Engineering, B.M. Das — F.G. McLean 258
Slope Stability — Geotechnical Engineering and Geomorphology, by M.G. Anderson and K.S. Richards — J.M. Harbor 259
Planning and Engineering Geology, by M.G. Culshaw et al. (Editors) — C.A. Baskerville 261
Hydraulic Processes on Alluvial Fans, R.H. French — N. Rajaratnam 262

Other Publications Received 265

Special Issue

Geology and the Environment edited by F. Chr. Wolff and A. Cendrero

Contents i
Foreword — F.Chr. Wolff and A. Cendrero 271
Geology and the environment — keynote to EUG V Symposium 11
E. Seibold (Freiburg F.R. Germany) 273
Preparation and application of engineering and environmental geological maps in The Netherlands
E.F.J. de Mulder and R. Hillen (Haarlem, The Netherlands) 279
Geoscientific maps for planning in semi-arid regions: Valencia and Gran Canaria, Spain
A. Cendrero (Santander, Spain), J. Sánchez, C. Antolín and S. Arnal (Valencia, Spain), J.R. Díaz de Teran and E. Frances (Santander, Spain), V. Martínez (Valencia, Spain), M. Mônino (Santander, Spain), M. Nieto (Valencia, Spain), I. Nogales, E. Pérez and C. Rios (las Palmas, Spain), F. Robles (Valencia, Spain), A. Romero and C. Duárez (Las Palmas, Spain) 291
Maps of the natural environment's potential in West Germany and Norway as an aid for mineral resources management and protection
U. Mattig (Erlangen, F.R. Germany) 321
Compilation of geological data for use in local planning and administration
K. Wolden and E. Erichsen (Trondheim, Norway) 333
Geology for environmental planning in northern Scandinavia — a new challenge to produce small-scale maps
F.C. Wolff (Trondheim, Norway), O. Selinus (Uppsala, Sweden) and H. Tanskanen (Espoo, Finland) 339
The use of site investigation data for the preparation of engineering geological maps and reports for use by planners and civil engineers
A. Forster and M.G. Culshaw (Nottingham, U.K.) 347
The groundwater vulnerability map for the Flemish region: its principles and uses
B. Fobe and M. Goossens (Brussels, Belgium) 355
Geological mapping of rapid mass movement deposits as an aid to land-use planning
L.H. Blikra (Trondheim, Norway) 365
Analysis of sedimentary processes on the Las Canteras Beach (Las Palmas, Spain) for its planning and management
J.M. Martínez, R.A. Espejo, I.A. Bilbao and M.D. del Rosario Cabrera (Las Palmas, Spain) 377
The Commission for the Geological Map of the World (CGMW) and small-scale earth-science cartography of Europe
O. Dottin (Paris, France) and G. Gabert (Hannover, F.R. Germany) 387

WEGS — A working club of Western European geological surveys
E. Stenestad (Copenhagen, Denmark) 393
The contribution of geoscience to the EC survey on European historic cities
M. Panizza and S. Piacente (Modena, Italy) 399
Applied earth-science mapping: the planner's requirement
B.R. Marker and G.J.H. McCall (London, U.K.) 403
Study of two alteration systems as natural analogues for radionuclide release and migration
P. Ildefonse, J.-P. Muller, B. Clozel and G. Calas (Paris, France) 413

Contents Volume 29, 1990 441
